

## Request for Assessment of the Society for Wildlife Forensic Standards and Guidelines v 3.0

I, \_\_\_\_\_ request the Society for Wildlife Forensic Science (SWFS) assess our Laboratory protocols and procedures to determine if we comply with the third version of the Standards and Guidelines (v3.0). I recognize that the assessment will automatically evaluate the General Standards and Guidelines, but I also request that the assessment include the additional technical procedures marked below:

- ☒ 3.0 General Standards and Guideline
- ☐ 4.2 General DNA Standard and Guidelines
- ☐ 4.3 Sequencing Standards and Guidelines
- ☐ 4.4 STR Standards and Guidelines
- ☐ 4.5 SNP Standards and Guidelines
- ☐ 5.0 General Morphology Standards and Guidelines
- ☐ 6.0 Chemical Analysis for Taxonomic Identification Standards and Guidelines

I understand that an assessment includes the submission of confidential documents (i.e. case reports) but that the Personal Identifiable Information (PIV) of subjects can be omitted.
